Claims 33-39 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on December 8, 2003.

Claims 56-59, 61, 63-65 and 67-69 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement with respect to the terms "polymer" and "substituted" for the reasons set forth in the Office Action of October 29, 2004.

Applicant's arguments filed May 2, 2005 have been considered but have not been found persuasive.

Applicant contends that the amended claims do not recite polymers as variable group substituents. This argument has not been found persuasive because claim 56 still reads on the variables R18 and R19 together or independently being a polymer.

Applicant contends that the terms such as alkyl and substituted alkyl are defined on pages 6-8 of the specification. Pages 6-8 of the specification have been considered and have been found persuasive with respect to the terms alkyl, alkenyl and alkynyl. However, applicant's argument has not been found persuasive with respect to the term "substituted". Note that on page 8 of the specification it is stated the term "substituted" "comprises 1, 2, 3 or more substituents" and that said substituents "include". Therefore, the definition of the term "substituted" set forth on page 8 of the specification is not limited to any number of substituents nor to any particular substituents. Note that the

Art Unit: 1623

term "include" means that the substituents can be other than those set forth on page 8 of the specification.

Claims 56-59, 61, 63-65 and 67-69 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims 56-59, 61, 63-65 and 67-69 are indefinite in that the variable "Rpr" (claim 56) has not been defined.

Claims 56 and 58 are duplicates. Note that claim 56 is already limited to the structural formula set forth in claim 58.

There is no antecedent basis in claim 59 for the R25 being $-\text{CH}_2\text{OC}(\text{O})\text{CH}_3$, $-\text{OC}(\text{O})\text{CH}_3$ or $-\text{CH}_2\text{OC}(\text{O})\text{OCH}_3$ as set forth in claim 65. Note that the definition of the variable R25 in claim 59 has been limited to H and optionally substituted alkyl.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1623

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
